ABOUT ME

Production Engineer with solid experience in Business Intelligence, data modeling, and dashboard development. Currently pursuing an MBA in Business Intelligence, Digital Marketing, and Data-Driven Decision Making.

I've worked in national and multinational organizations since 2017. My strengths include designing ETL pipelines, building dimensional models (Star Schema, Snowflake), and developing KPIs and dashboards using Power BI, SQL, SSAS (Tabular), and DAX. I'm also familiar with cloud platforms (Azure, AWS, GCP) and Agile (Scrum) methodologies.

Nowadays, I integrate my analytics skills with Claude AI.

EXPERIENCE

Senior Analytics Developer / Tabular Developer

Cinpal

- Nov 2025 – present | São Paulo, Brazil
- Designed and implemented BI solutions using DAX measures and dimensional models for OLAP systems (PBI, Tabular).
 - Ensured data quality and consistency by validating ETL pipelines and migrations.
 - Managed and maintained Power BI datasets, including access control and bug fixes.
 - Advanced data modeling development applying best practices.

Tools: Fabric, ADF, SQL, Tabular Editor CLI, Python, Git, Power BI, PowerShell

Senior Power BI / Tabular Developer

Keyrus

- Oct 2023 – Apr 2025 | São Paulo, Brazil
- Designed and implemented BI solutions using DAX measures and dimensional models for OLAP systems.
 - Ensured data quality and consistency by validating ETL pipelines and migrations.
 - Managed and maintained Power BI datasets, including access control and bug fixes.

Tools: Azure, AWS, Azure Warehouse, SQL, Tabular Editor, Python, Git, Power BI

Senior Power BI Developer

Tata Consultancy Services

- Oct 2023 – Apr 2024 | Barueri-SP, Brazil
- Developed BI dashboards for internal stakeholders.
 - Validated data migrations (Denodo → Athena) and built OLAP models.
 - Created DAX measures and maintained dataset integrity.

Tools: Azure, AWS, Azure Warehouse, SQL, Databricks, Python, Git, Power BI

Senior BI Consultant (Freelance)

Self-Employed

- Mar 2023 – Jan 2024 & May 2020 – Nov 2021 | São Paulo-SP, Brazil

- Developed BI and cost-monitoring dashboards for R&D and construction projects.
- Designed data warehouses and ETL pipelines; collaborated with UX teams to deliver storytelling dashboards.

Tools: Azure, AWS, GCP, Data Factory, Dataverse, Power Apps, Databricks, Power BI, Excel, BigQuery, Google Sheets

BI Coordinator

Cheil

📅 Jul 2022 – Mar 2023

📍 São Paulo-SP, Brazil

- Built marketing dashboards using GA4 and Power BI.
- Automated data integration using Supermetrics API and Google Sheets.

Tools: GCP, SQL, GA4, Adobe Analytics, Power BI

BI Specialist

Tecnisa S/A

📅 Nov 2021 – Nov 2022

📍 São Paulo-SP, Brazil

- Created ETL routines using Power Query and dimensional models for reporting.
- Retrieved data via SQL, APIs, and web scraping; optimized models with DAX Studio and Tabular Editor.

Tools: Azure, Synapse, Azure SQL, Python, Power BI, Excel, Data Lake

Data Analyst

Kroton

📅 Oct 2017 – Dec 2019

📍 Valinhos-SP, Brazil

- Built dashboards and models using Power Query, Power Pivot, and DAX.
- Managed academic data flows and acted as Scrum Master in Agile teams.

Tools: Azure, SQL, Power BI, Excel, Python (Pandas, Matplotlib)

Maintenance Planner / Engineer

Mahle Metal Leve

📅 Feb 2013 – Jan 2016

📍 Queimados-RJ, Brazil

- Planned and scheduled maintenance using Gantt charts, PERT/CPM, and TPM.
- Tracked MTBF and MTTR to enhance operational efficiency.
